LIGNUM TERRADILEGNO

Water-based coloured wood impregnator

LIGNUM TERRADILEGNO is a coloured impregnating agent, comprised of a water-based polymer emulsion. It is ideal for any type of interior or exterior wood surface, as long as not exposed directly to the atmospheric agents. It can be used as a coloured primer for wood surfaces that require a finish or as a coloured impregnating finish for wood surfaces that are not exposed directly to the atmospheric agents. Available in different pastel colours: ANTHRACITE, CLAY, DOLOMITE, MUD, LICHEN, MAUVE, OCHRE, SAND. On request, colours can be made from the RAL and NCS colour chart.

Dolomite

Anthracite

Mud

Sand

Ochre
