

LITHOS DETERPAV

CONCENTRATED NEUTRAL DETERGENT WITH DEGREASING ACTION

PRODUCT DESCRIPTION

- Lithos Deterpav is a **concentrated neutral cleaner with degreasing action**, containing **surfactants of natural origin**.
- Suitable for **routine and deep** (extraordinary) **cleaning** of stone floors in general.
- Also suitable **for removing wax treatments** that are deteriorating.
- Suitable for cleaning **natural stones** that are not resistant to acid washing (e.g., slate, polished marble, etc.) immediately **after on-site laying**.

RECOMMENDED USE

Lithos Deterpav can be used on any type of stone flooring, both natural and artificial, treated and untreated, **indoors and outdoors**.

The product is suitable for floors made of:

- TERRACOTTA
- NATURAL STONE
- CERAMIC
- PORCELAIN
- CEMENT-BASED AGGLOMERATE
- TERRAZZO
- CLINKER
- CONCRETE

COVERAGE

The coverage varies depending on the extent of the stains and the removal to be carried out.

CHARACTERISTICS

- **Gentle** but **effective** cleansing action.
- **Low** foaming.
- It leaves **no halo or matting** and it **does not require rinsing**, when used in the indicated dosages.
- Leaves the environment with a pleasant **fragrance**.
- It also **removes** dirt from grout lines.

BEFORE APPLICATION

- The used **tools** must be **clean** (free of impurities or residues of other products).

TOOLS

Cloth, mop, single-disc machine, abrasive pad, scrubber

dryer, pressure washer and wet vacuum cleaner.

METHODS OF APPLICATION

- For routine cleaning, dilute 1.5 caps of the product per 2 litres of water if using the jerrycan cap, or 6 caps if using the bottle cap.
- For deep cleaning, dilute 3 caps per 2 litres of water if using the jerrycan cap, or 12 caps if using the bottle cap.
- Thoroughly wipe the surface with a well-wrung cloth (or other chosen tool). The product does not require rinsing when used at the indicated dosages.
- For stubborn dirt, apply the product undiluted directly to the stains and let it sit for 5 minutes. Then rub the surface and proceed with rinsing.
- When cleaning with a pressure washer, excess liquid is to be removed with a cloth or wet vacuum.
- To remove degraded wax treatments, use the product undiluted and a single-disc machine with a medium-hard abrasive disc or a hard abrasive pad.

ATTENTION

- On floors treated with LITHOS OLEO, it is advisable to use Lithos Deterpav only after at least 30 days have passed since the oil application.
- It is recommended to always carry out a preliminary test with the product before use.

CLEANING OF TOOLS

With clean water immediately after use.

PRODUCT STORAGE

Store product in the original container, well closed, in a cool and aerated place, protected from heat sources. The product is frost sensitive! Storage temperature: between +5 °C and +30 °C. **Shelf life:** 48 months from manufacturing (see batch on package).

TECHNICAL DATA

Aspect: liquid

Colour: blue

Odour: plant essence

Density: 1 g/ml

pH: 7

Solubility: soluble in water

Boiling point: about 100 °C

LABELLING

Signal words

Warning

Hazard statements

Causes serious eye irritation.
